DESCRIPTION

The "Scope of Work" document outlines the essential responsibilities and expectations for contractors bidding on projects with Rize Construction. It includes the requirement to bid on all work activities, items, supplies, and materials related to your specific trade or scope of work. Contractors are encouraged to clearly state general exclusions, but bids with exclusions for items that should be responsibly covered within the scope of work may not be considered.

Bidders must fill out and return the Rize Construction Bid Form, and they can also submit their typical bid form in PDF format. Bids should be submitted by the posted deadline, and any pre-bid Requests for Information (RFIs) should also adhere to these deadlines.

After a successful bid, contractors will receive a Master Contract agreement (A421) and a job-specific Work Order. All necessary documents must be on file and signed before work can commence. 4:0†Working With Rize Construction.pdf*.
