SYSTEC101

DESCRIPTION

Introduction:

SYSTEC101 is pleased to submit this proposal for Premise Wiring Services at Joint Base Lewis McChord. Specializing in structured cabling with a strong history of high-quality installations for complex military infrastructures, we offer a strategic approach to meet and exceed the Department of Defense's project objectives within the specified timeframe.

Scope of Work: Engineering, Furnishing, Installation, and Testing (EFI&T)

SYSTEC101 proposes an upgrade to the premises wiring in building 307, including the installation of new NIPR Cat-6 cabling. Our comprehensive approach covers all aspects of infrastructure deployment, from material procurement to system integration. A detailed Bill of Materials, outlining all high-quality components from reputable manufacturers like Chatsworth and CommScope, will be provided to ensure optimal performance and longevity.

Technical Execution Plan:

1. **Pre-Installation:** Thorough site assessments and finalized schematic layouts will be conducted to ensure alignment with client specifications and structural requirements.
2. **Installation:** Our highly skilled technicians will execute the cabling installation and associated infrastructure deployment, minimizing operational disruption.
3. **Testing & Commissioning:** Rigorous testing procedures will be performed to verify all network connections meet specified performance criteria.

Project Timeline:

- **Project Kick-off:** Will commence immediately upon contract award.
- **Completion:** Will be achieved within stipulated deadlines and according to predefined project milestones.

Advantages of Selecting SYSTEC101:

- **Adherence to Industry Standards:** Our methodologies strictly comply with IT and Telecom Data Center Support Services and defense regulations under NAICS Code 517111.
- **Experienced Personnel:** Our team is led by certified project managers and includes highly qualified technicians with extensive experience in complex installations within secure environments.

- **Demonstrated Success:** Our track record includes numerous successful projects of similar scope and complexity, demonstrating our ability to consistently deliver superior outcomes within established timelines.

Conclusion:

SYSTEC101 is confident in our capability to deliver exemplary structured cabling solutions that effectively meet the requirements of Joint Base Lewis McChord. We are eager to partner with the Department of Defense to enhance its communication infrastructure.

For inquiries or further discussion, please contact our bid submission team. We look forward to the opportunity to collaborate on this important project.

Attachments:

1. Bill of Materials
2. Statement of Technical Qualifications
3. Certificates and Licenses
4. Compliance Documentation

Thank you for considering our proposal. We are committed to maintaining the highest standards of quality and reliability throughout project execution.

Payment Terms

- ☐ Type I 100 % after completion
- ☐ Type II 50 % Down (Initial Payment) 50 % Completion (Final Payment)
- ☐ Type III 30 % Down Payment, 20 % Payment after completion of 30 %, 20 % Payment after completion of 50 %, 20 % Payment after completion of 70 %, 10 % Payment at final completion.
- ☐ Type IV Custom Payment

Payment Terms

Client agrees to pay for "Services" as outlined in this proposal in the Grand Total Amount of **\$194,769.50 to US**

Payment to be made as follows:

Type I - 100 % after completion.

Payment Stage	Billing Percentage (%)	Amount (in USD)
Stage I	100	194769.50

Please remit the payments to **US 11871 E 33rd Ave Unit B,Aurora CO 80010.**

If during the scope of the project client request changes or additions in system design, or a deviation from the normal scope as listed, **US** will either provide a time-and-material estimate, or a not-to-exceed figure for work to be performed.

A service charge of 1.5% per month will be added to accounts past due.

Warranty

US guarantees that it has carried out the installation work necessary for the Project to the satisfaction of the Customer. In the event of any issues or faults arising from the installation services or any customization or modification of purchased equipment that US was responsible for during the Project, US commits to rectify these problems at no additional cost to the Customer. This warranty will remain in effect for a period of 6 months from the Project's completion date.

It's important to note that US's warranty specifically covers only the customization and modification aspects of the equipment used in the Project. Any issues related to the overall performance of the equipment itself fall outside the scope of this warranty. In such cases, the Customer should rely solely on the warranties provided by the equipment manufacturers for resolution of malfunctions or defects.

Should a malfunction or defect in the Project be attributed to the equipment, US, within its 6 months warranty period, will provide reasonable assistance to the Customer in facilitating any warranty claims with the respective equipment manufacturers.

1. Buckley Space Force Base Fiber Cabling

Project Name: SST Fiber Cable Material and Installation

Contact Information:

CHRISTOPHER G. SMITH, CTR, Sonalysts, Inc.
SBIRS Training Support Specialist / Project Leader
Buckley SFB, CO 80011
Comm: 720-847-0532 / DSN: 847-0532
Aurora Office: 303-879-2031 ext. 5003
Mobile: 719-660-4118
NIPR: christopher.smith.366.ctr@spaceforce.mil

Industry of Organization: DOD

Project Accomplishments:

The project involved the installation of fiber optic cables outside and inside plant fiber optics.

- The initial phase consisted of a thorough survey to map out existing cabling pathways and identify optimal routes for new fiber optic cables.
- Subsequently, the team pulled and spliced fiber optic cables, establishing connections between buildings as well as between network rooms within the same building.
- The meticulous work extended to splicing individual fiber optic strands, followed by a labeling and certification process to ensure all runs met the required standards.

Completion Date: 2024

Original Contract Amount: \$34,104.34

Completed Cost Amount: \$34,104.34

Denver - 11871 E 33rd Ave, Unit B, Aurora CO, 80010
New York - 418 Broadway STE N Albany NY 12207

2. Adams County School District 14

Project Name: E-Rate, Wireless Access Point Cabling, and 10GB Fiber Optic Interconnect

Contact Information:

- David Powell
Network Administrator
Adams County School District
145291 East 60th Ave.
Commerce City, CO 80022
Cell: 303.853.3227
dpowell@adams14.org
www.adams14.org

Industry of Organization: County School District

Project Accomplishments:

- Successfully installed over 1000 Cat 6a cable runs and fiber uplinks, ensuring unwavering connectivity throughout the school campuses.
- Gained valuable knowledge and experience in navigating the unique complexities of a school environment, which will be instrumental in successfully executing projects.

Completion Date: 2023

Original Contract Amount: \$367,994.00

Completed Cost Amount: \$367,994.00

Denver - 11871 E 33rd Ave, Unit B, Aurora CO, 80010
New York - 418 Broadway STE N Albany NY 12207
E-mail: my@systec101.com
Phone: 303-537-7575

3. Rockland County Department of Social Services

Project Name: RFP-RC-2024-006 - Access Point Installation for the Department of Social Services Building L

Contact Information:

- Mark Navarro
Network Administrator - Rockland County DSS
50 Sanatorium Road - Building L
Pomona, New York, 10970
Cell: 845-364-3188
email: mark.navarro@dfa.state.ny.us

Industry of Organization: County government office

Project Accomplishments:

- Completed the installation of network cabling for the newly implemented Wi-Fi system in the Rockland County Department of Social Services' "Access Point Installation for the Department of Social Services Building L" project (RFP-RC-2024-006).

Completion Date: 2024

Original Contract Amount: \$21,340.83

Completed Cost Amount: \$21,340.83

Denver - 11871 E 33rd Ave, Unit B, Aurora CO, 80010
New York - 418 Broadway STE N Albany NY 12207
E-mail: my@systec101.com
Phone: 303-537-7575

4. Trinidad State College Student Housing Cabling Upgrade Project

Project Name: TSC Cat6 Cabling (RCC)

Contact Information:

- Terry Hindsman
Purchasing Manager
Cell: 720-858-2772
e-mail: terry.hindsman@cccs.edu

Industry of Organization: State College Student Housing

Project Accomplishments:

- Successfully installed over 300 Cat6 cables in student housing facilities spread across four buildings, enhancing the college's infrastructure to provide reliable and high-speed internet connectivity for students residing in these buildings.

Completion Date: 2024

Original Contract Amount: \$135,716.19

Completed Cost Amount: \$135,716.19
