Details

Location Adams County, Colorado
Purchase Type Duration:3 years
Description The City desires to establish a Master Service Agreement with a qualified vendor(s) to meet the City's low-voltage needs on various projects as they arise. Low-voltage work for the City varies from small scale installs to meet individual needs up to full facility construction and remodeling. The City is currently in the design phase for a new, large, police substation, remodeling the Buffalo Run restaurant and pro-shop, both of which will require a full structured cabling install. Additionally, as the City grows, there are always needs to restructure offices, add capabilities supported by low-voltage infrastructure, to support changing requirements.
