1) Migration issues
1) Database should move with latest data. All of the resources (scholarships that I entered didn't migrate)
2) testing of functionality
3) sometimes items don't work (stripe, smtp, etc) until I test them.
4) We have to update the latest ver in Github.

Payment History Add on
1) Can we add a label next to the "Help" button and "Add Manual Dispute" button to indicate the differences between the two?
2) In admin panel can we sort by date and time?
3) Add a text in Payment History - Transaction History (If you an issue with a transaction don't hesitate to click on the "Help" or "Add Manual Dispute" button.
4) In admin panel - add a text that describes color code. Purple is —-, Yellow —-, Red —- under Query Listing.

2) Title / label change in interface

1) Change "Grade" to "Education / Career Level"
2) Change List of Stacey Hitt Gifphtee's to Stacey Hitt Gifphtees

5) Basic Functionality

1) Stats - Gifptee and Gifpht (count is off). Maybe it's working now.

6) Organization payment

1) Should send an email/alert 30 before payment is due
2) Problem making payment - 404 page appears when I get ready to pay via stripe
3) Should show payment amount next to areas served

When I get a message from alil-help this is how it is listed in email. I would like to change the labeling a bit.
